

Please do not do anything that would make K-LOVE unavailable in some areas. K-LOVE is a great stations that reaches out to the Christian community. It also brings many to Christ. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, it would be just one more way that Satan is winning over America. Please do not let evil reign in the US. Their are plenty of rock/alternative/country/talk radio stations in the US, but not many family oriented Christian stations that the whole family can listen to. Please do not take this away from us.
